sterile ready-to-go stock solution, 50 mg/ml

Cat. No.	Amount
AB-105S	1 ml
AB-105L	5 ml

For research use only! Not intended for human or animal diagnostic or therapeutic uses.

Shipping: shipped on blue ice

Storage Conditions: store at -20 °C

Shelf Life: 12 months

Form: colorless liquid

Description:

Contains 50 mg/ml of LEXSY Neo antibiotic.
Sterile.

Selection:

Can be used for selection of recombinant organisms expressing the APH gene encoding aminoglycoside 3'-phosphotransferase.

For selection of recombinant *Leishmania* strains LEXSY Neo is added to growth medium to a final concentration of 50 µg/ml.

Please note:

LEXSY Neo is different from the anti-bacterial antibiotic Neomycin. The latter MUST NOT BE USED for LEXSY selections.
